Netherlands Environmental Assessment Agency

Dear colleagues and friends,

With pleasure I would like to invite you to the 34th meeting of the Task Force on Integrated Assessment Modeling. The meeting will be held from 7-9 May in Madrid in the Technical University of Madrid (School of Industrial Engineering, José Gutiérrez Abascal 2. Phone: +34913363060). Logistic information will follow later.

The meeting will start on Wednesday, May 7th at 10.00h and I intend to finalize the meeting on Friday 9th (not later than 15.00h).

The first day will focus on the experiences by national integrated assessment modellers and will be organized in co-operation with the network of National Integrated Assessment Modellers. At the second and third day attention will be paid to scenario development and modelling needed for the revision of the Gothenburg Protocol. I also intend to have a short informative session on modelling of heavy metals and POPs.

If you have suggestions for the agenda I invite you to contact me before April 1th as I intend to send the draft agenda around in the beginning of April.

In particular participants from new EU member states and EECCA countries are invited to give presentations on air pollution (policy) and related research work in their country. For participants from EECCA countries the Dutch ministry of Environment offers the possibility of reimbursement of the costs of your stay in Madrid. Please contact ingrid.kalter@mnp.nl to obtain a reimbursement form.

In order to make proper preparations, would you please send the attached registration form before April 14th to ingrid.kalter@mnp.nl

Kind regards,

Rob Maas
Chair Task Force on Integrated Assessment Modelling
