

National Integrated Assessment Modelling

NIAM meeting 22-23rd March 2010

at IIASA, Laxenburg

Agenda for Monday 22nd March

Morning session

10.00 am Start of meeting: introduction and welcome

10.15 Reporting of progress on national IAM activities (10 to 15 mins each maximum)

Melanie Sporer: Austria's emission projections and development of a modelling framework

Jochen Theloke: Overview of activities and plans for IAM at the University of Stuttgart

Rebecca Ilsen: The Otello model

Todor Todorov: Introducing the use of the GAINS model in Bulgaria

Luisa Volta: Sensitivity analysis of efficient policies to IAM formulation: the Northern Italy case study

Tim Oxley: Progress in development of the UK IAM model

Mark Barrett: New project on low carbon shipping/long-distance transport emissions

Niko Karvosenoja: Progress and plans for IAM modelling in Finland

Artur Wyrwa: Modelling of atmospheric dispersion of mercury in the framework of the EnerGEO project

12.30 -13.30 LUNCH

13.45 **Afternoon session: (15 minutes per presentation)**

Addressing urban air quality

Oxley, ApSimon & Elshkaki: Modelling trends in urban air quality, and the effect of increasing primary NO₂

Jan Aben: The Dutch modelling framework for assessing exceedances of NO₂ and PM₁₀ limit values along busy streets and traffic highways

Jochen Theloke: Preliminary outcomes of the PAREST project

Bertrand Bessagnet: Urban modelling in EC4MACS

15.00 Longer term projections

Niko Karvosenoja: Finnish 2050 projections with emphasis on urban planning

15.20 – 15.40 Coffee break

15.40 Uncertainty analysis and intercomparisons

Tiziano Pignatelli: Comparison of emission scenarios for Italy with possible implications for the feasibility of achieving targets.

Fearghal King: A practical approach to presenting uncertainty within emission modelling

Luisa Volta: IAM approaches and uncertainty assessment

16.40 Other NIAM business

European energy scenarios: seeking information re PRIMES

Use of the new NIAM website: membership pages

Other NIAM activities.....

17.40 Adjourn meeting

Tuesday 23rd March

Joint meeting with EC4MACS project: agenda being produced by IIASA/EC4MACS
